

How can you help someone who has a

burn

Key action:

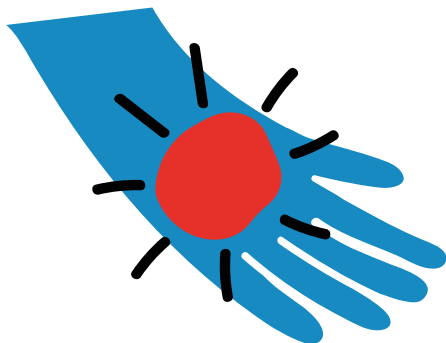

Cool it

How do you know they've burned themselves?

They may have touched something hot.

Their skin might be red and painful.

How to help

- 1 Take them to a cold tap and hold the burn under cold running water for at least 20 minutes.

- 2 While you are helping to cool the burn, send someone to get an adult.
- 3 After the burn has cooled down, cover it with cling film or a clean plastic bag.
